We Come To You...Chairside!

PRE - OP INSTRUCTIONS FOR SINUS AUGMENTATION

- Premedicate with two, 875mg tablets of Augmentin 1 hour before your surgery, then take 1 tablet daily for 7 days.
- If you are allergic to Augmentin, Amoxicillin, or Penicillin, premedicate with Azithromycin instead. Take two 250mg tablets 1 hour before your surgery, then take 1 tablet daily, for 4 days.
- If you take aspirin on a daily basis, stop taking it for 7 days prior to your surgery. Consult with your physician prior to stopping the aspirin.
- 400mg of ibuprofen (Advil or Motrin) is recommended 1 hour prior to the surgery.
- Wear comfortable clothing. Sinus Augmentation can take up to 1 hour.
